As a user, I would like to hover over any heading, so that I can see the effects applied.

As a user, I would like to see the band's social media links at the button of all the pages, so that I can click on them and access all their information easily.

As I user, I would like to see a carousel of images in the center of the main page, so that I can look at the pictures while I read.

As a user, I would like to have a back-to-top button on all pages where I have to scroll down to see more information, so that it is easier to go back to the top of the page.

As a user, I would like to see a background picture on all pages, so that the pages look more interesting.

As a user, I would like to have all music albums displayed on the music and more page, so that I can see the

to-top button on all pages where I have a scroll bar. This will allow users to go back to the top of the page.

As a user, I would like to have a button on the tour page with collapsible information about past tour dates, so that it only displays the information if I click on it.

As a user, I would like to have all music albums displayed on the music and more page, so that I can see the album cover while I read about them.

As a user, I would like to have a store page, so that I am able to buy the band's products.

As a user, I would like to have a newsletter page, so that I can register for emails about upcoming events and more.
